

Variable Message Signs - Trailer mounted

Trailer mounted Variable Message Signs (VMS) provide an active, highly visible, flexible medium to convey messages to road users. Messages can be changed quickly and remotely using SMS to reflect changes in traffic conditions, traffic flow and congestion, accidents, incidents or natural disasters.

Features

- » Compliant to New Zealand Transport Agency (NZTA) standards
- » Available for hire
- » Fully programmable via user-friendly graphical interface
 - Pre-programming functionality
 - Remote programming either by laptop PC or cellular SMS
 - On-unit programming module with built in keyboard
- » Built in security including a GPS position locator
- » Solar powered – no generator required
- » Trailer mounted to be easily transportable
- » Ballast tanks for high-wind areas
- » Proven reliability with many VMS in use

Specifications

- » Sign Size: 2600mm wide x 1600mm high
- » Sign weight: 960kg
- » Trailer Size: 1845mm wide x 2500mm high x 3600mm long
- » Setup Size: 2200mm wide x 4300mm high x 3600mm long
- » Wind loading: Certified to 134kph
- » Suitable for approach speeds up to 110kph
- » Built to Australian Standard AS4852.2-2009
