

ADA Pedestrian Fence

The CSP Pacific ADA Pedestrian Fence provides a continuous hand guided safe passage through work zones, and assists with pedestrian traffic and event crowd control.

It is fully compliant to New Zealand Transport Agency (NZTA) standards and the Americans with Disabilities Act (ADA) requirements. ADA Pedestrian Fence will even allow a guide dog to see what is on the other side of the wall.

Each 1830mm long section weighs only 10.43kg and the double walled, non-flexible lightweight design makes the ADA Pedestrian Fence easy to lift on and off a truck and connect on site. The ten moulded in vertical windows reduce wind load and add strength and stability.

Manufactured from UV stabilised, high density polyethylene, ADA Pedestrian Fence is designed to withstand the rigours of daily use in a multitude of applications.

Features

- » Compliant to New Zealand Transport Agency (NZTA) Standards
- » Protects pedestrians from work zone hazards
- » Event crowd control
- » Pedestrian traffic control
- » Two Step-N-Deploy legs make installation quick, easy and safe
- » Ergonomic handrail provides a comfortable and secure guide through the work zone
- » UV inhibitors to minimise fading
- » Manufactured from flexible high density polyethylene
- » Stackable for easy transport and transportation with four built in stacking lugs
- » Easily fitted with reflective sheetings as required
- » Meets the Americans with Disabilities Act (ADA) standards

Easily stacked for transport and storage

Specifications

- » **Weight:** 10.43kg
- » **Height:** 1000mm
- » **Length:** 1830mm
- » **Width:** 76mm
- » **Material:** UV Stabilised High Density Polyethylene
