

Portable Solar Lighting

Our new range of portable solar lighting provides the ease of moving your lighting needs as your work site changes.

With a concrete base that can be moved around to suit the ever changing needs of a work site, the portable range of solar lighting becomes a must have to furnish a safer working environment.

Available with a secondary concrete base for B and C rated areas

Portable Solar Lighting

Portable Solar Lighting Specifications

The poles are hot dipped galvanized and the solar panels are set to capture maximum exposure. Both the solar panel and the 30W LED light have easy clip attachments for ease of assembly.
