100W Portable Solar Light

30W Portable Solar Light

Portable Solar Lighting 30W and 100W

Our range of concrete base portable solar lights enables you to adjust your lighting as your project site changes for safety and an optimal work environment.

With a concrete base that can be moved around to suit the ever changing needs of a work site, the portable range of solar lighting becomes a must-have to furnish a safer working environment.

With two wattage options:

- 30W (LED) Portable Solar Lights
- 100W (LED) Portable Solar Lights

FEATURES

- Poles are hot dipped galvanised
- All-in-one compact unit
- The solar panels are set to capture maximum exposure
- Both the solar panel and the LED light have easy clip attachments for ease of assembly
