

Hire Products

- » Need a compliant barrier or crash cushion for lane or road closures?
- » Don't want the expense of having to invest in a product you possibly won't use again?

» Why not consider hiring?

CSP Pacific has the following products available for hire to suit all temporary barrier requirements:

Water-Wall™ TL-1 Plastic Water Filled Barrier

- » A 100% polyethylene water-filled barrier unit which are joined together using a steel connector
- » Provides positive work-zone protection to temporary construction sites & other miscellaneous activities
- » Can be used in many situations from protecting the public surrounding a construction site to work-zone safety on 50kph roads - Test Level 1 (TL-1)
- » 180 lineal metres can be delivered on one truck, saving on transport costs
- » Mini SLED End Treatment is a free standing end unit that can be fitted to the barrier in a tangent position

ArmorZone™ TL-2 Plastic Water Filled Barrier

- » A durable plastic water-filled, side protective, crash barrier system
- » Can be used in many situations from protecting the public surrounding a construction site to work-zone safety on 70kph roads - Test Level 2 (TL-2)
- » Is simple and easy to install with no special installation requirements
- » The ArmorZone™ End Treatment is a free standing 'special' end unit that can be fitted to the barrier in a tangent position

BarrierGuard 800 TL-3 and 4 Steel Barrier

- » A light weight steel barrier system that is approved to NCHRP 350 TL-3 & 4
- » The steel sections weigh 90kgs/metre - 144 lineal metres of barrier can be delivered on one truck, saving on transport costs
- » The lighter weight of the 12m lengths makes installation, quicker, safer and far less labour intensive
- » Can be used with most temporary and permanent crash cushion end treatments

ABSORB 350® TL2 and 3 Crash Cushion

- » A water-filled, non-re-directive, gating crash cushion
- » Is approved for NCHRP 350 TL-2 and 3
- » It can attach to portable, permanent and moveable concrete and steel barrier

ADA BARRICADE

- » Provides continuous hand guided safe passage through work zones
- » Fully compliant to Americans with Disabilities Act (ADA) requirements
- » Lightweight and easy to transport and erect on site
- » For pedestrian, work zone, traffic and event control
